

OCT 04 2006

REMARKS

Applicants thank the examiner for the interview of October 4, 2006, wherein the claims of this patent application were discussed favorably. In the interview, the examiner suggested several amendments that would distinguish the claims over the prior art cited in the Office Action, including the newly discovered reference by Laine et al. ("Laine"). Although Applicants believe that the claims prior to this Amendment are allowable over Laine and the other art of record, Applicants have nevertheless amended claims 55, 75, and 82 as suggested by the examiner in order to expedite allowance.

Applicants assert that these amendments are supported in the specification and add no new matter. Applicants further reserve the right to pursue other claims in a later continuation patent application.

Applicants assert that the claims, as currently amended, are in condition for allowance. In the event that the examiner finds any remaining impediment to the prompt allowance of any of these claims, which could be clarified in a telephone conference, the examiner is respectfully urged to initiate the same with the undersigned.

DATED this 4th day of October, 2006.

Respectfully submitted,

A. John Pate
